MISSION

MESSAGES

Dear Students.

The task of education is to explore all what is good in human personality and annihilate all that is bad. A sound and healthy system of education aims at the all-round development of personality. Smt. Kamladevi Gauridutt Mittal Mahila Mahavidyalaya seeks to achieve this ideal of education. Our College offers such pattern of education which includes Indian cultural heritage and modern scientific achievement to make the personality of a student in a healthy and sound way. The college believes in imparting value added education that will bring forth an overall development in the students. Our system of education is a blend of theory and practice in the right proportion to arrive at a comprehensive curriculum. Our college has a strong team of experienced staff who are devoted and committed to the cause of education. I conclude with the words of an eminent scholar "Education is not to reform students or to amuse them or to make them expert technicians, it is to unsettle their minds, widen their horizons, inflame their intellects and teach them to think straight."

Sh.Vishwanath Mittal

Founder Trustee Mittal Charities, Mumbai

Dear Students,

A strong believer and practitioner of the dictum "Knowledge is Power", Smt. Kamladevi Gauridutt Mittal Mahila Mahavidyalaya has been on the path of delivering quality education by developing the young human resources on the foundation of moral values, while boosting their leadership gualities and innovative skills. Highly experienced and gualified faculty members continuously engaged in the maintenance and enhancement of student-centric learning environment through innovative pedagogy, form the backbone of this institution.

I strongly believe that our institution is marching ahead in the right direction, providing a holistic education to the future generation and playing a positive role in Nation Building.

Albert Einstein once said "We cannot solve our problems with the same thinking we used when we created them" and this captures the essence of the transformative education at our college. Today's competition requires a different kind of preparation. I invite students to come and get a degree from our college that offers this preparation. I extend my warm welcome to you as you become part of our college.

Sh. Kishan Mittal Trustee Mittal Charities, Mumbai

Dear Students,

"When girls are educated, their countries become stronger and more prosperous "-Michelle Obama As we say that the mother is the first teacher of a child, so she should possess a good amount of knowledge to put the future generation on the right track of life. So we feel immense pride in saying that our Smt. Kamladevi Gauridutt Mittal Mahila Mahavidyalaya strives to provide the best education at affordable fees. We believe in all round development of the students, in both intelligence and character. We have many student welfare programs to help those who have ambition to study but have limited means. We welcome you to our institution and hope that you will take full advantage of the opportunity to learn, develop and fulfill your aspirations. Education is the passport to the future because tomorrow belongs to those who prepare for it today. The learning experiences in the campus pave a strong path for enhancement of overall development of the learners.

I, wish and assure you, on behalf of our college, that we will help you to pursue your objectives of life under the varied social, cultural and economic environment.

Dear Students.

"Education is the most powerful weapon which you can use to change the world"- Nelson Mandela It is with immense pleasure and a sense of pride that I welcome you to Smt. Kamladevi Gauridutt Mittal Mahila Mahavidyalaya For a successful career, every student needs knowledge, confidence, academic and technical skills, career opportunities and social skills. To get these benefits college education is important. The importance of college education can be determined by the role it plays in our life. We spend maximum time in getting well educated and I think that college education is a way to understand the things that we learned earlier with a deeper knowledge and its application in real life. I am proud to be a part of this institution which really works in the field of women empowerment by increasing the confidence level of our students. Furthermore, the involvement of women in all sectors has increased India's growth rate. Now women are taking over every sector of society. That, in turn, is helping to expand our India's literacy rate. Without any denial, we can say that women's education is a major step toward success.

ONLINE EDUCATION FACILITY

The spread of COVID-19 has led to the closure of educational institutions all over the world. Such closure accelerated the development of the online learning environments within those institutions so that learning would not be disrupted. When it comes to e-learning, the students can customize - the learning environment, the learning content itself, the interaction between facilitator, student and the learning content as per personal preferences. This aspect can generate more interest in students towards learning.

The teachers can also be at ease as they have enough options to interact with each student online, instruct and address specific issues even directly after the class.

The faculty and staff are working towards ensuring a seamless transformation to digital/online learning via technology solutions like youtube, Zoom,and Google Classroom etc.
