GREEN CAMPUS POLICY.

Date 16-11-2021

Introduction

To keep the college environment clean, green campus policy is made in the college. Under which every year in the college tree Plantation program is organized. In which various types of trees are planted in college campus the students are given responsibility for the maintenance of each plant.

Practice

1. Green and Environment audit of the campus.
2. Proper disposal of E-waste formed in the institution.
3. Every year for green campus initiative, plantation program is organized under NSS.
4. Under the aegis of NSS, students are given responsibility of plants for their maintenance.
5. Students are recommended to use more and more degradable material in place of non degradable material such as plastic etc.
6. Paper is reused for writing and printing by the staff and students to ensure less wastage of paper.

7. Installation of LED tube lights, bulbs in the campus for energy conservation.
8. Students are motivated to understand the value of water and not to waste water.
9. Smoking free campus, no emission of smoke in any activities.
10. Water conservation through rainwater harvesting system in campus which is used for plantation of trees.
